

Clinic (Non-Medical Provider) Volunteer Opportunities EW

Clinic and support volunteers are important to our success in providing quality healthcare to our patients. The following opportunities do not require any previous medical training or experience. All clinic volunteers are asked to make a time commitment of two, 4-hour shifts per month, for one year (unless otherwise noted). Scheduling for all volunteer opportunities is flexible. The hours at Englewood are Monday – Wednesday 9am – 6pm, Thursday 9 am – noon and Friday 9am – 4pm.

Lab Volunteer:

Lab volunteers are trained to perform a variety of venipuncture techniques and collecting blood and other specimens from patients. Lab volunteers are required to complete the Lab Training and have a Hepatitis B vaccination record on file.

Triage Volunteer:

Triage volunteers are responsible for taking patient vitals (temperature, pulse, respiratory rate, BMI, blood pressure, height, weight and, for diabetics, blood glucose levels) and chief complaints. Triage volunteers are required to complete the Triage Training

Front Desk Volunteer:

Front desk volunteers are responsible for assisting with a variety of administrative tasks at the health center's front desk. Tasks include filing, making patient phone calls, providing customer service to patients and assisting staff.

Dispensary Volunteer:

Dispensary volunteers are responsible for assisting providers in dispensing medications to patients. Tasks include counting medications, restocking supplies and assisting providers with medications.

Spanish Interpreters

Because a portion of the population we serve speaks Spanish as a primary language, we are continually looking for interpreters to assist with communication with our patients in a medical settings.

Interpreters must be fluent and complete the Interpreter Training.

Fitness Instructors

Experienced fitness instructors are asked to lead our patients in classes. CommunityHealth is committed to providing patients with a variety of fitness options. In the past, classes have included yoga, aerobics and zumba. Volunteers in this role are asked to commit to holding classes once each week for six weeks. Classes are usually 1 ½ to 2 hours each. Scheduling is flexible.

Diabetes Educators

Diabetes educators are responsible for facilitating diabetes education classes &/or small groups of our patients as well as members of the community. Volunteer should have general knowledge of diabetes control, maintenance and prevention, although s/he will be trained on the curriculum. Volunteers in this role are asked to commit to holding a class once each week for five weeks. Classes are usually 1 ½ to 2 hours each.
